MEMORANDUM FOR Camden Shipping Corporation, 56 Georgetown Road,  
Bordentown, New Jersey, 08505-2405  
Attn: Beverlyn Grissom

SUBJECT: Female Owned Minority Contractor Statistic

This memorandum is the response to an official inquiry we have received concerning previous statistical information of female minority contractor activity and contracts with the US Army. Our research and conclusion contained in this memorandum are based upon all available data collected by our office and our affiliate agencies.

As of the date of this memorandum our office has no record or statistical data of any female minority owned contracting awarded for maintenance dredging or land reclamation. Moreover we have no record of any activity involving female minority owned contracting for maintenance dredging.

It is therefore our conclusion, that the Camden Shipping Corporation, of 56 Georgetown Road, Bordentown, New Jersey, is the only female minority owned dredging contractor to apply for and provide the Army Corps of Engineers contracting services.

Questions concerning this memorandum or the statistical information used to complete this memorandum should be forwarded to [luther.l.santiful@hqda.army.mil](mailto:luther.l.santiful@hqda.army.mil).
